

SAVAGES SKILLFUL WITH WHIP.

Australia Tribesmen Also Use Spear and Boomerang with Accuracy.

The world has been called upon to furnish features for the Young Buffalo Wild West and Col. Cummins' Far East show which exhibits in Columbia on Monday, September 23. Australia contributes a tribe of aborigines from its interior, whose skill with the bull-whip, spear and boomerang, is said to be most wonderful. Marion and Billy Waite, the stars of this tribe, hurl spears measuring five feet in length at a target 200 feet distant, striking the "bull's eye" with the same accuracy that Annie Oakley displays with a rifle. With giant bull whips, measuring 85 feet in length, the Waites cut in twain bottles held at arm's length and cut bottoms from the garments of assistants, the entire distance of the whip lash away.

Annie Oakley, the peerless wing and rifle shot of the world, is another of the big features. She has appeared in nearly every city in the civilized world and many of the crowned heads of Europe have bestowed upon her valuable tokens in appreciation of her extraordinary talents.

Indian has contributed her wonder-workers and necromancers; Arabia, her best horses and skilled horsemen; Russia, her most fearless cossacks and whirlwind dancers; Japan, her acrobats and jugglers; South Africa, her noted marksmen and sharpshooters; America is represented by Indians, cowboys, bronco busters, horse wranglers and plainsmen, while Mexico contributes her vaqueros and rurales.

"The Winning of the West" and "Frontier Day at Cheyenne" are two new features introduced in the wild west portion of the program. Elephants, camels, dromedaries, long-horned cattle from Iceland, the original 20-ox team and many other rare and curious animals are used in the far east.

Looks Like You Because—

We don't make suits that look good on EVERYBODY. Each one of our suits is made to look good on SOMEBODY.

You simply select a weave and design of cloth you like, and we make that cloth into a suit FOR YOU. Of course we know ABOUT what sort of a suit would fit and please people in general. But we don't like the about-fit and the about-please style of a suit. And we don't believe you like them either.

In Fashion Shop suits every stitch is taken by our tailors in our own workshop. The suit is cut to please you; you can try it on while it is being made and KNOW that the suit will represent you individual personality. The suit will look like you because it is your creation—made for you under our direction. You are the architect; we do the work.
